

JURY

TECU®
ARCHITECTURE
AWARD 2022

Evaluation Criteria

The jury will evaluate the submitted work on the basis of the architectural idea and its realisation, its exemplary and innovative construction, its functionality and the creative use it makes of materials. All submissions will be evaluated either in the category of Realised Buildings or of Project Award for Students.

Prizes

The jury is entitled to divide the award sum differently if it feels this is appropriate.

Consultations

Jury consultations are not public. Individual members of the jury who withdraw at short notice will be replaced by a representative from the same company of architects. Jury decisions are made by a simple majority of votes. The decisions of the jury are final; there is no right of appeal.
